Dear Parent/Carer

Re: Cambridge Nationals Creative iMedia Level 1/2

We would like to offer your son/daughter the opportunity to study Cambridge Nationals Creative iMedia Level 1/2 course. This course is equivalent to 1 GCSE and will be taught in the same class your son/daughter is in at present. We have carefully considered his/her in class engagement and assessments for Computer Science and Maths when deciding to offer this course.

He/she is currently studying the GCSE Computer Science, which is a challenging course and assessed by 2 external exams at the end of year 11. In comparison, the Creative iMedia course is assessed by 1 exam which can be taken at the end of year 10 and offers the students the opportunity to retake if they wish to improve the grade as well as 3 internally assessed coursework units. As a school, we feel that students who may find exams more challenging would really benefit from this alternative way of assessing them. Furthermore, students who are not yet achieving a grade 6 or higher in Maths have historically found it very difficult to achieve a grade 4 or above in Computer Science GCSE. We feel this course will give your child an increased opportunity of achieving a higher grade.

I believe your son/daughter will hugely benefit from changing to the above course and am confident he/she can achieve a higher grade if he/she continues to work hard.

I would be grateful if you would complete the reply slip or reply email back to school at your earliest. If you have any questions about the above, please feel free to contact me on r.chaudhry@coxgreen.com to confirm you are in agreement with this change.

Kind regards

Ms. Chaudhry

Learning Leader Computer Science & I.T
